

IMPACT REPORT

2025

FINANCE AND OPERATIONS

We manage, in a responsible, transparent and balanced way more than

CZK 100 mil.

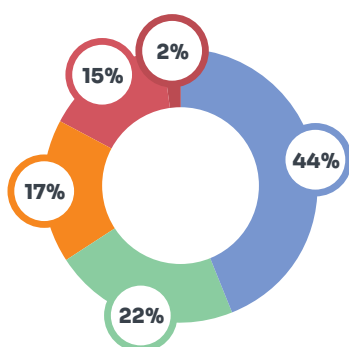

1/2 Donations make up almost **our budget.**

They ensure our independence, allowing us to help where it is needed most.

6000 individual donors contributed **CZK 28 mil.**, **274** companies donated **CZK 9 mil.** in 2025.

Sources of Funding

- Donations
- State subsidies
- Own resources
- Health insurance companies
- Other income

How much does care cost?

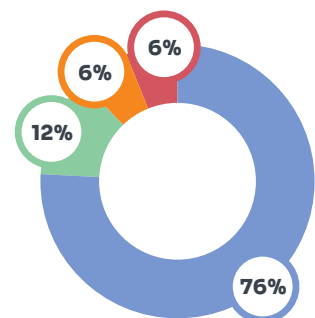

CZK 5,606 is the cost of **one day of care** for **one patient** and their loved ones.

How much does the insurance company pay?

CZK 2,443 is the average amount **reimbursed** **per day of hospice care.**

Expenses by Type

- Personnel costs
- Services
- Other expenses
- Material

CZK 111 This is the average amount **missing per hour of home hospice care** and covered by your donations.

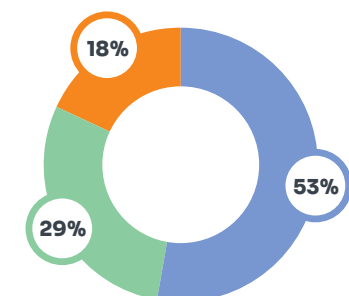

Did you know we contribute together with you?

We operate and continuously improve our **charity shops**, which **contributed** a record to our budget in 2025.

CZK 13.9 mil.

Expenses by Purpose

- Direct care
- Facilities
- Awareness and education

Charity Auction 2025

At last year's 14th charity **auction of Cesta domů**, **166 out of 187 artworks** were auctioned for a record

CZK 5,760,200.

9%

Despite our joint efforts and significant progress in palliative care, only 9% of patients dying from expected causes use home hospice care. We continue and will not relent — thanks to you.

OUR PURPOSE AND OUR IMPACT

Palliative care is only **exceptionally** and **insufficiently** represented in the specialized training of healthcare professionals.

39

professional internships and 400 hours of in-person teaching increased the confidence of doctors and nurses in palliative care and communication.

42% of women and 31% of men fear failure in psychologically and physically demanding care and seek information and support.

Our counselling centre provided

4,356

interventions to help people in difficult or crisis situations.

Our portal **umirani.cz** records

12,000

visits per week, regularly updated and available 24/7.

Lack of information among doctors and families often prevents timely initiation of palliative care.

222

healthcare professionals from GP practices participated in accredited training focused on caring for incurably ill patients.

7 out of 10 people wish to die at home, but only 2 actually manage to do so.

Thanks to our home hospice,

466

patients were able to spend the end of life safely at home.

Unfortunately, I cannot give anyone two weeks of life. But I can support them so that they spend their last days at home, in love and acceptance. And allow them and their family to say goodbye with dignity. May my support help accompany anyone who reaches the end of their life's journey.

80% of general practitioners expressed interest in consolidated palliative care materials.

We equipped

2,000

GPs with a set of **practical materials** to facilitate communication and choosing appropriate procedures.

11,000 people die annually in social residential institutions.

171

social-service workers can now guide patients toward palliative care thanks to our course on the palliative approach.

More than **30%** of children and adolescents feel isolated when a death occurs in the family, and only 10% of schools have a **crisis plan** for such situations.

55

helping-profession workers completed newly accredited bereavement support courses in 2025.

More than

500+

children and students had the opportunity to discuss death and loss in a **safe environment** with professional guidance.

2 to 3 children in every primary school class have experienced the loss of a loved one, and teachers often cannot provide adequate support.

500

schools used our content for supporting children on ÁMOS VISION interactive panels.

92% of teachers received no training in dealing with children's grief during their university education.

345

teachers and counselling staff gained support for communication with pupils and parents.

Thank you for the invaluable help and support your team at Cesta domů always willingly provided. Thanks to you, my husband's wish was fulfilled — not to end up alone in a hospital or an institution. He was able to die peacefully and quietly at home and was never alone.

400 to 500 families experience perinatal loss each year, yet specialized care and support are not available.

Our counselling centre compassionately supported

32

parents through the loss of their baby.

Prague urgently needs approximately **70** new hospice beds.

We opened

4

new hospice beds in September 2025 to increase the availability of hospice care in Prague.

Family members often **reach the limits of their strength** under the burden of continuous care.

Our field respite-care team provided

5,530

hours of relief to exhausted families.

Palliative patients waited more than **120 days** for approval of the care allowance — and often did not live to receive it.

Through long-term advocacy

we achieved a change in the law: the allowance is now granted automatically, without assessment and without delay.

More than **60%** of bereaved people are isolated in their grief, and 15% may develop complicated mourning.

396

bereaved individuals were able to cope better thanks to consultations with our support team.

Up to **80%** of patients suffer from pain and psychological distress at the end of life.

We alleviated pain and brought relief to

761

patients through palliative care.

I wish that in society – and especially among professionals – end-of-life care were less of a taboo. Thank you for all the work you do to raise awareness.

Annual
Report
2025

CESTA DOMŮ IN TWO MINUTES

Services and Care

We operate **a home hospice and an inpatient** hospice.

We provide **specialized care** for the incurably **ill** and **support their families**.

We **accompany** those coping with the **loss of a loved one**.

- **Mobile Hospice**
- **Inpatient hospice**
- **Counselling centre**
- **Outpatient palliative and supportive care**
- **Respite services**
- **Support services**
- **Rental of medical aids and equipment**

922 hospice and outpatient patients

637 outpatient visits to patients

1,483 lent assistive devices

10,427 respite-care hours for caregivers

Awareness and Education

We **strive** to foster better **understanding of death and dying** among **professionals and the public**.

We **share experience** from **palliative care** and contribute to **systemic change**.

We **offer support** where **clear information** is missing.

- **Education**
- **Publishing house**
- **Library**
- **Charity shops**
- **Bubenská 3**, Prague 7 – Holešovice
- **Bělohorská 74**, Prague 6 – Břevnov
- **Žitná 27**, Prague 1 – Nové Město

100+ educational events for professionals and the public

27,800 followers on social media

12,000 weekly visits on umirani.cz

11,500 books and brochures sold

Volunteers

Volunteers are an integral part of Cesta domů; without their involvement, the scope and quality of our activities would not be possible.

In 2025, **140 volunteers** of various ages, professions, and interests contributed **9,173 hours** to Cesta domů.

www.umirani.cz

We operate the information portal **Umírání.cz**, a professional guide to end-of-life issues for patients, caregivers, bereaved families, and professionals. It offers expert information, verified advice, personal stories, and the possibility of professional consultation — all in one place.
